The Global Gallery Art Exhibit will remain in the Gallery until November 5th. The exhibit is to visually bring the “Volunteer experience” from around the world to UT’s campus and promote global understanding. The exhibit features photographs by UT students, faculty, and staff from around the world that have volunteered in some capacity. This year, smartphones will be available for guests to scan QR codes at the exhibit and hear more about the volunteer experience from around the world. The VolSphere Tour is another way to learn about the UT Global Gallery Exhibit. The VolSphere Tour can be found in the Student Union until November 5th. The Volunteer experience by scanning QR codes at the exhibit with their smartphones. The purpose of the Global Gallery is to engage the community in seeing images that are from people of different cultures. The gallery is a space for visitors to engage with the images and learn about the UT community. The gallery is also a space for visitors to leave their own images and share their own stories. This year’s gallery includes images from around the world. The gallery is open to everyone and encourages community engagement. The gallery is located in the Student Union and is open until November 5th.

UPCOMING EVENTS
November 5, 2021
Held Online on Zoom
Date: Thursday, November 11, 2021
Time: 7:00 – 11:00 am ET US | 2:00 – 6:00 pm ISR time

One Health Workshop
The One Health Workshop is jointly held with presenters from Hebrew University, Tel Aviv University, and the University of Tennessee, Knoxville. The workshop will include six research presentations by faculty and a session on funding opportunities for both Israeli and US scholars working in the domain of One Health. The One Health concept is the integration of knowledge from multiple disciplines, including medicine, public health, agriculture, veterinary medicine, and ecology, to address complex health issues caused by the interaction of infectious agents, the environment, and human, animal, and plant hosts. The workshop aims to bring together researchers from different disciplines to discuss and identify collaborative opportunities for research and funding. The workshop is open to anyone interested in One Health research and is free to attend. For more information or to register, visit the website.

Yushiro Narita. The museum is honored to report that Mr. Narita's family, descendants of its original owner, fallen World War II soldier, Mr. Sugimoto, Associate Professor of Rural Studies at Akita International University to repatriate a Good Luck flag to the McClung Museum. The Good-Luck Flag Returns a Japanese Good-Luck Flag

International Education Week (IEW) 2021
UT will celebrate IEW 2021 from Nov. 15 to 19. IEW is a U.S. Department of State initiative which serves as a call to action for higher education institutions to promote diversity, unity, and togetherness. The event will be located in the Student Union and will feature a variety of activities and events. The event is open to everyone and encourages community engagement. For more information or to register, visit the website.

IEW Keynote Speaker:
Hera Jay Brown
Hera Jay Brown is the 2021 Rhodes Scholar and the first ever African woman Rhodes Scholar. Hera is a human rights activist and recent graduate of the University of Oxford. Her research focuses on the intersection of politics and the environment. Hera will return to campus this November 16th at 7:00 pm in the Howard H. Baker Jr. Center for Public Policy, Toyota Auditorium. Her keynote presentation, "Uncomfortable UTK: Navigating Transgender woman Rhodes Scholars," will be held over the month of November. This year's IEW Keynote Speaker will be Hera Jay Brown. A full schedule of events can be found at the IEW website.

Give to CGE
With your generous support, CGE was able to welcome another cohort of students over a three-year period. The International Research Experience for Students (IERES) program is a competitive, merit-based grant program for full-time UT students to pursue research abroad. The IERES program is designed to support students interested in studying, working, or conducting research in an area of the world that is underrepresented in UT's academic programs. The IERES program also provides students with the opportunity to gain valuable international experience and to develop skills that are essential for success in today's global economy. The IERES program is open to all full-time UT students who have completed at least 60 credit hours. The application process for the IERES program is competitive and requires students to submit a detailed application. For more information or to apply, visit the IERES website.

Lead Long-term Research Abroad Program
The Lead Long-term Research Abroad Program is a competitive, merit-based grant program for full-time UT students to pursue research abroad. The program is designed to support students interested in studying, working, or conducting research in an area of the world that is underrepresented in UT's academic programs. The program also provides students with the opportunity to gain valuable international experience and to develop skills that are essential for success in today's global economy. The program is open to all full-time UT students who have completed at least 60 credit hours. The application process for the program is competitive and requires students to submit a detailed application. For more information or to apply, visit the program website.

The International Research Experience for Students grant is a competitive, merit-based grant program for full-time UT students to pursue research abroad. The grant is designed to support students interested in studying, working, or conducting research in an area of the world that is underrepresented in UT's academic programs. The grant also provides students with the opportunity to gain valuable international experience and to develop skills that are essential for success in today's global economy. The grant is open to all full-time UT students who have completed at least 60 credit hours. The application process for the grant is competitive and requires students to submit a detailed application. For more information or to apply, visit the grant website.
